

Castle Combe: _____ driving on _____

Key:
BP Braking point
TP Turning point
CP Clipping point

Stay to left by TP then cross bumpy centre of track to right at Folly then cross bumpy bit back to left and use as much track as possible but watch for debris on left. Cross back to right for BP for Avon

My notes...

Touch brakes at BP, cross to inside corner. Accelerate over rise, bit blind, keep straight

Keep straight. Brake, change to 3rd, middle of track TP late when in corner. Close to CP. Accelerate, head for pylon, let car straighten

Brake quite hard but no need to change gear. Stay to left by TP but cross to CP and back to left on exit

4th gear or near rev limit for 3rd

Shallow. Middle of road, accelerate hard

BP and TP on left cross to right close to chicane, left across 2nd kerb, accelerate on way out. After exit get back to centre ASAP

THIS IS A CORNER. DON'T GO STRAIGHT ON. Close to BP, TP, don't lose too much speed. Cross to chicane, can be on kerb. Then straighten 2nd kerb and turn in a bit more using kerb. Use rumble strip on other side if need to. Accelerate hard.

Close to left at BP and TP. CP is late in corner and can't see it. cross to left on exit. Nice curve. Accelerate after CP but keep turn on.

At TP be in centre, turn to CP, let car straighten and cross to left of track. Cross back for TP on right at Hammerdown
